

FELIMAZOLE[®] Treatment Monitoring Sheet

Dose of Felimazole: AM: _____ mg PM: _____ mg Date: _____

Please circle the best description of your cat's symptoms over the last 4 weeks:

Eating habits

Hardly eating	Needs encouragement	Normal	Eats quickly, looks for more	Ravenous all of the time
---------------	---------------------	--------	------------------------------	--------------------------

Drinking

Less than normal	Normal	More than normal	Much more than normal
------------------	--------	------------------	-----------------------

Urinating: frequency and volume

Less than normal	Normal	More than normal	Much more than normal
------------------	--------	------------------	-----------------------

Sickness and diarrhoea

Every day	More than once but not every day	Once since last log	Not at all
-----------	----------------------------------	---------------------	------------

Skin/Coat condition

Thin, dull, patchy coat; darker skin	Slightly thin, dull coat; excessive dandruff	Slightly dull coat, no thinning	Thick, shiny coat; no dandruff
--------------------------------------	--	---------------------------------	--------------------------------

Other observations

Unprovoked aggression, seems anxious	Restless, unable to settle comfortably, gets bored easily	Other (give details)
--------------------------------------	---	----------------------

Overall, how does your cat seem?

Miserable most of the time	Has more bad days than good	Has more good days than bad	Happy all the time		
Just starting treatment, too early to tell	My cat has more clinical signs than before	No difference now than before treatment	Some improvement since starting treatment	My cat is nearly back to their normal self	If I didn't know, I wouldn't think my cat was ill

FELIMAZOLE: Felimazole contains thiamazole
